

CASIO®

First-time ease of use. New from Casio!

For efficient store management and sales increase.

Order Entry System

Easy Booklet

— Industry-First Innovation* —
Incorporates an easy-to-operate
booklet-type portable terminal

*First ever for a restaurant industry order system (as of June 2010; source: CASIO internal data)

Simple operation designed for maximize ease of use

Easily operated multi-page touch keys ensure simple, and quick menu item input. Even first-time users can operate the system with confidence, and improves work efficiency naturally and rapidly.

Industry First* Use of a Booklet-Type Handheld Terminal

*First ever for a restaurant industry order system (as of June 2010; source: CASIO internal data)

Simple One-Key-One-Item Operation

The system realizes simple one-key-one-item operation using pages that correspond to table menus. It is possible to set 192 menu items using ordinary operation and up to 384 items using shift operation. The superb operability and ease of use offered by booklet-type handheld terminals promotes work efficiency and contributes to service improvements and restaurant reputation.

Menu Setting Example

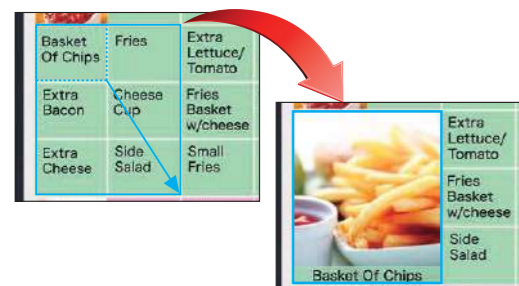

Highly Legible LCD Screen

The easily readable LCD screen supports comfortable operation, including confirmation of input items, use of the operation guide, and simple menu change.

Use of Large Buttons for Popular Menu Items

For instance, combine four keys for configuration as a single button. For added convenience, prepare large buttons for popular menu items. Use of photos is also possible.

Antimicrobial Treatment Contributes to Sanitation

The handheld terminal case is treated using an antibacterial agent evaluated using the ISO 22196 method. The antimicrobial treatment contributes to sanitary use.

*Quality control and information disclosure are conducted using Society of Industrial Technology for Antimicrobial Articles guidelines in accordance with results evaluated using the ISO 22196 method.

New Workers Quickly Contribute to the Business

Easy-to-use multi-page touch keys make it possible to learn operation more rapidly. This reduces the burden of worker training.

Simple Switching Between Daytime and Evening Menus

Switching between a lunch menu and dinner menu is as simple as replacing pages. A convenient replacement booklet (QF-12BM) is available as an option.

Taking of Additional Orders Using the Reminder Function

When a preset time period has elapsed since order transmission, the server is reminded using a buzzer or vibrator. This facilitates confirmation of the situation at the customer's table or the taking of additional orders.

Conveniently Powered by AAA alkaline Batteries or Rechargeable Batteries

The handheld terminal can be powered using ordinary AAA alkaline batteries or rechargeable batteries. There is no need to recharge the terminal itself.

Grow the Business with Improved Service

The use of a booklet-type handheld terminal enables staff to focus on customer service with no distraction from device operation. This contributes to improved hospitality.

Meticulous Attention to Worry-Free Operation

Worry-Free Shock-Resistant, Splash Proof Design

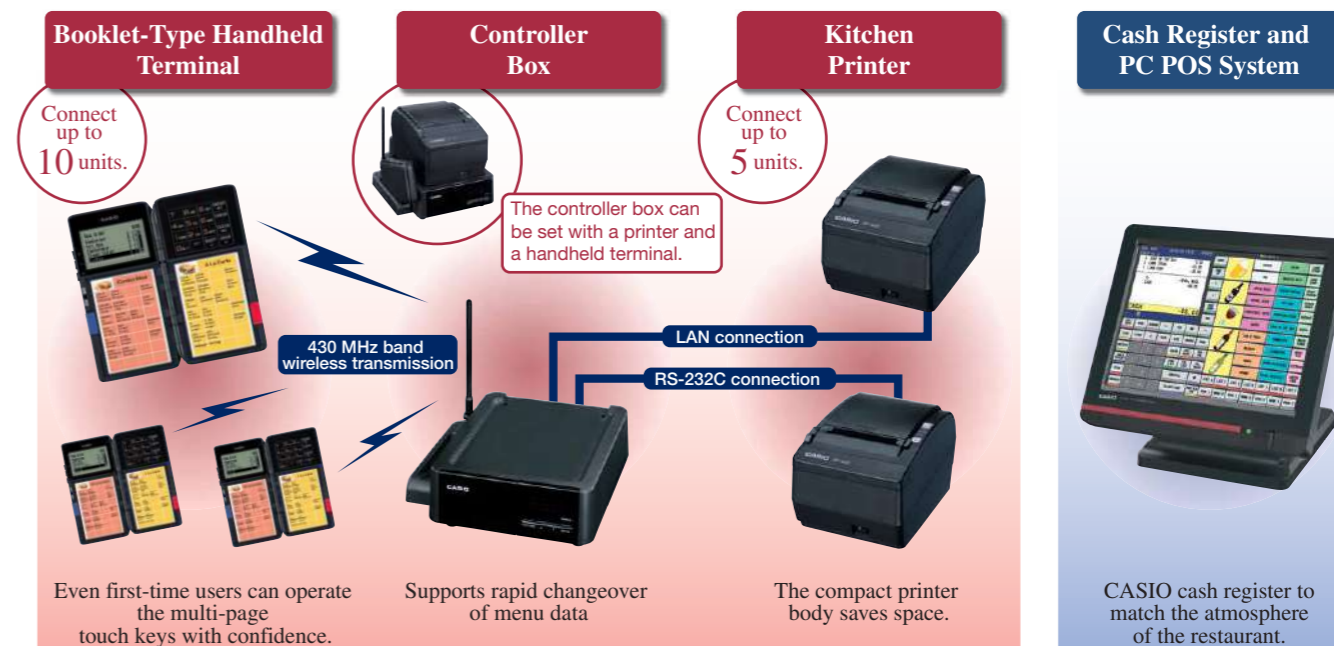

The handheld terminal features dust-proofing and splash proofing that meet the IP54 international standard and a shock-resistant structure that can withstand dropping from a height of 1.6 metres.

430 MHz Band Wireless Transmission to Resist Interference from Electronic Devices

To ensure worry-free operation, order data is transmitted using the 430 MHz band, which is subject to little interference from microwave ovens or other electronic devices.

System Configuration Example

Configure a system suited to the size and requirements of your business. The system offers excellent scalability.

- Portable Terminal QF-R10
- Controller Box QF-11CB
- Kitchen Printer UP-400 / UP-370

*A radio wave check may be required prior to system installation. Depending on the radio wave situation, use of the system may not be possible. Please inquire for details.

Handheld Terminal: QF -R1 0

- Size (WxDxH): 80 x 150 x 25 mm (excluding protruding parts)
- Weight: Approx 250 g (including batteries)
- Power source: Four AAA alkaline batteries or rechargeable batteries (Recommended rechargeable batteries only)
- Display: 80x144 dot full-dot matrix LCD display 6 lines LED backlight (White)
- Keys: 192 menu keys
384 keys using shift operation (six-page page turning method)
- PLU memory: 3,072 PLUs (384 x 8)
- Communication method: 2.4 GHz band low-power wireless communication
Infrared communication
- Other: Antimicrobial treatment (terminal case)
Splash proofing and dust-proofing (IP54 compliant)
Reminder function
Automatic power On/Off function

Controller Box: QF -11CB

- Size (WxDxH): 215 x 216 x 77 mm (with antenna folded down)
- Weight: Approx 1.2 kg
- Power source: AC 220V ~ 240V
- Connection: 100 Base-TX (for cash register and kitchen printer connection)
RS-232C (for kitchen printer up to two units)
CF card slot
- Communication method: 2.4 GHz band low-power wireless communication
Infrared communication

Kitchen Printer: UP-40 0 / UP-370

- Size (WxDxH): 145 x 193.2 x 120.1 mm
- Weight: Approx 1.1 kg
- Power source: AC 100V ~ 240V
- Connection: 100 Base-TX (UP-400)
RS-232C (UP-400 / UP-370)
- Printing: Thermal printing
- Printing paper: 80-mm thermal paper roll
- Cut: Auto cutter
