How Intelligent Robotics Labelling System (IRLS) Works

High Speed 4-Axis Robotic Arm

Only requires 2 seconds to complete whole label printing and applying procedures

Intelligent Robotics Control Software

Ensure accurate label position, controlling the operation, and generating daily reports

In-built Label Design System

Support pre-defined format, and directly imports data from Excel

Touch Screen for Setup and Control

Manage only one console for the whole labeling process

Client's Feedback

"Its turnaround time is really quick and that's what exactly we need."

- A Popular Department Store

"We received a very high-quality service with competitive pricing."

- One of Local Cosmetic Retail Groups

"IRLS impressed me by its high speed and flexibility."

- Asia Leading Cosmetic Retail Group
